Mobil Diesel Efficient™

Enhance your engine's performance

The new Mobil Diesel Efficient™ fuel delivers both a cleaner engine and lower emissions, contributing to an impressive overall performance for your engine and your business.

Lower emissions, cleaner air

In tests compared to standard unadditised diesel, Mobil Diesel Efficient™ fuel helped reduce NO_x emissions by an average of 10%, particulate matter emissions by an average of 22% and carbon dioxide emissions by an average of 2.8%.*

Cleaner fuel injectors need less maintenance

Formulated to protect fuel injectors from internal and external deposits to optimize injection spray characteristics and provide better combustion, engine power, and performance

Mobil Diesel Efficient™

Enhance your engine's performance

The new Mobil Diesel Efficient™ fuel delivers both a cleaner engine and lower emissions, contributing to an impressive overall performance for your engine and your business.

Reduced fuel consumption

Independent tests confirmed an average reduction in fuel use of 2.8%, that's 28,000 litres of fuel saved for 1,000,000 litres purchased.

Protecting your engine fuel system from corrosion

A special additive helps provide excellent corrosion protection and contributes to the safeguarding of your fuel system.

Optimising your refuelling

Delivering a faster and cleaner fill, our additive contains an anti-foaming agent. This results in quicker refuelling of your fleet bringing operational benefits to your business.

Mobil Diesel Stop Network

We've launched a chain of Mobil Diesel truck stops, bringing quality Mobil diesel to convenient, strategically located sites.

Time is money so the less time spent refuelling the better for your business, we're committed to getting you fuelled up and back on the road as fast as possible - each site has, at minimum, B-Double accessible, hi-flow pumps, easy card payment facilities and Diesel Exhaust Fluid (DEF) available.

Mobil is offering competitive pump prices for quality diesel at these sites, and depending on volume, can offer further discounts.

All sites in the Mobil branded network are supplied with Mobil diesel, which is subject to Mobil's stringent quality controls, so you can have peace of mind that you're receiving a quality product.

Mobil Card™

More control, more flexibility.

Whether you are hauling heavy freight or managing a fleet of vehicles, you can rely on Mobil Card. Now even better and with a range of upgrades, the new Mobil Card is here for your business like never before. It offers you a convenient, cashless solution for fuel and fleet management.

Zero account fees.

Security and control:

More transparency over drivers and vehicles.

Dedicated customer team:

Local support for your business

Speed and safety:

Faster and safer dedicated truck fuelling at all Mobil Diesel truck stops.

Flexible:

Generous account terms – up to 51 days.

At your fingertips:

Easy to use platform to access your account, check your balance or order more cards

Mobil quality fuels:

Access to Synergy™ and Mobil Diesel Efficient™ fuels that protect your engine.

Less admin:

All card expenses in one simple statement.

Great savings:

Competitive pump prices and exclusive discounts for eligible customers.

All in one:

Consolidate your fleet expenses, plus save more with Mobil Card extras.

Why Mobil™?

Why Mobil™?

Why Mobil™?

Why Mobil™?

We understand what it takes to deliver

As part of the ExxonMobil family of brands, Mobil™ offers one of the industry's largest inventories of global oil and gas resources.

Today, more than ever, we continue to shape and lead the industry with a cutting-edge portfolio of innovative products and value-added services designed to improve fleet performance, streamline operations and take your business further.

Our customers speak for us

For more than 120 years, Mobil™ has cultivated long-lasting relationships with its customers, who are very much part of the Mobil™ family.

Testing*

Independent tests performed at Millbrook Proving Ground Ltd., UK:

- Compared the performance in heavy-duty vehicles of unadditised diesel with Mobil Diesel Efficient fuel
- Used third-party customer trucks (Euro III and Euro V specifications)
- Covered approximately 110,000 miles/177,000 km
- Five months of normal daily on-road operations (motorway, rural, and urban environments)
- Took trucks out of service periodically for lab testing
- Test results range of 2.1% to 3.4% lower fuel consumption

Testing in CEC XUD-9 and the CEC DW-10B engine tests demonstrate the fuel keeps injectors clean in both IDI and DI engine technology.

Mobil Diesel Efficient™ fuel claims are based on internal and third-party vehicle engine testing, laboratory testing, and/or industry or other scientific literature. Basis for comparison for all claims is versus unadditised diesel. Vehicle type, engine type, driving behaviour, and other factors also impact fuel and vehicle performance, emissions, and fuel economy. Mobil Diesel Efficient™ fuel may be used in all heavy duty and light duty vehicles, but results may vary. Fuel economy testing was performed in the UK using on-road trucks.

Millbrook has expertise in automotive, test, and propulsion technologies and remain pioneers in low carbon development. (ISO Certification - ISO 17025, ISO 9001 and ISO 14001.)
